

CONNECT / CREATE / COMMERCIALIZE

It's both our tagline, and our recipe for success.

Whether you're an entrepreneur with a new venture, a seasoned executive helping to grow an established business, or a small team of inventors with a game-changing idea. You're all innovators, and all with the same goal. To get your product into customer hands.

Fortunately, you have 401 Tech Bridge on your side.

UNLOCK TOMORROW'S VIRTUAL WORLD

Join Us for a Demonstration Event:
Digital Twin; Modeling & Simulation Environments

Spotlighting the transformative power of Digital Twin/Virtual Worlds and their applicability across a wide range of diverse sectors.

Whether it is a digital twin of a specific component, vehicle, or platform, or even an environment to “game” solutions in, we will be taking a deeper dive into capabilities that exist now to solve the problems of tomorrow.

To receive more information, please RSVP at: [Digital Twin Interest](#)

I'M INTERESTED

Upcoming May Event: **Persistent Monitoring & Sensing Demonstration**

Are you a pioneer in the field of persistent monitoring and/or sensing technologies?

Are you developing cutting-edge solutions that revolutionize how we gather data in various environments?

We invite you to showcase your innovations at our upcoming demonstration event!

Persistent Monitoring & Sensing Demonstration Event

Are you a pioneer in the field of persistent monitoring and/or sensing technologies? Are you developing cutting-edge solutions that revolutionize how we gather data in various environments?

We invite you to showcase your innovations at our upcoming demonstration event!

Save the Date:

- Tuesday, May 21st

Location:

- In-Person: 127 John Clarke Rd. Middletown, RI
- Virtual: Access from Anywhere!

[REGISTER NOW](#)

This demonstration aims to highlight the latest developments in persistent monitoring and sensing technologies across diverse domains. From environmental monitoring to industrial applications, we seek to showcase a wide array of solutions that push the boundaries of data collection and analysis.

Benefits of Participation:

- Gain exposure for your innovative solutions among industry professionals, researchers, and potential collaborators.
- Network with fellow innovators and experts in the field.
- Receive feedback and insights to further enhance your technology.

For more information and to submit your interest, please visit: [Persistent Monitoring Event Interest](#)

Highlights from our Undersea/Multidomain Communications Demonstration Event

On Thursday, March 28th, we embarked on an exciting journey into the depths of undersea and multidomain communications at our inaugural demonstration event. Ten pioneering companies converged to showcase their cutting-edge technologies and capabilities, marking the first of four such events aimed at unraveling the mysteries of connectivity beneath the waves.

Our panel of esteemed experts meticulously evaluated each participant, reviewing their applications, technical submissions, and live demonstrations to discern the true essence of innovation and efficacy. After careful deliberation, we are thrilled to unveil the final selection who have earned the prestigious invitation back for our in-water demonstration day in August.

Congratulations to:

- CSignum
- HydroNet
- AQUABAND (Marecomms)
- OceanComm, Inc.
- Torrey Pines Logic

These exceptional companies have showcased ingenuity and promise, securing their place at the forefront of undersea and multidomain communications technology.

Additionally, Havguard AS has been extended an invitation to join the esteemed lineup in August, underscoring their remarkable contributions to the field.

We extend our heartfelt appreciation to all participants for their invaluable contributions and unwavering dedication to advancing the frontiers of communication technology. It was a privilege to witness the convergence of innovation and expertise, fueling insightful discussions and forging new pathways towards transformative solutions.

A Round of Applause for our Expert Panelists:

- [Randy Brandenburg](#)
- [Steven Bordonaro](#)
- Dianne Egnor
- [Benjamin Pelletier](#)
- [Dennis McLaughlin](#)
- [Toby Stapleton](#)

We express our sincere gratitude to our esteemed panelists, whose astute assessments and invaluable insights have enriched our evaluation process and guided our selections. Their unwavering commitment to excellence has been instrumental in shaping the trajectory of our demonstration events, fostering an environment of collaboration and excellence.

As we look ahead to our upcoming in-water demonstration day in August, we remain steadfast in our commitment to fostering innovation, collaboration, and excellence in undersea and multidomain communications.

401 Tech Bridge Welcomes MTS to Middletown

Our Middletown center was buzzing with energy and conversation. Thank you to all who attended our Networking Social in March. Special gratitude to [Marine Technology Society - New England Chapter](#) and your membership for a wonderful evening.

We look forward to further collaborations!

ONGOING TECH SCOUTING EFFORTS

Are you an innovator developing products and technology for undersea, offshore, maritime, or Blue Tech?

Below are a few of the opportunities that 401 Tech Bridge is currently sourcing. New opportunities arise all the time. Contact us to learn more!

- **ACOUSTIC RELEASE BOTTOM UNIT**
- **PASSIVE ACOUSTIC RECORDER**

- **MICRO UNMANNED UNDERSEA VEHICLE (UUV)**
- **REMOTELY OPERATED VEHICLE - ROV**

ANNOUNCEMENT

RISE-Up Press Release

Inaugural Innovation & Entrepreneurship Challenges Final Pitch Night

The University of Rhode Island is excited to announce the culmination of its first annual Innovation & Entrepreneurship Challenges with the Final Pitch Night, slated to take place on April 22nd. This transformative initiative, powered by RISE-UP, has seen enthusiastic participation from URI students and researchers, who have been tasked with tackling real-world issues within the university environment.

Since the kickoff on February 1st, the program has engaged students in problem-solving exercises, equipping them with the necessary tools and resources to innovate and develop viable solutions.

The Innovation & Entrepreneurship Challenges have provided a platform for students to showcase their creativity and entrepreneurial spirit. Throughout the program, participants have been guided through workshops, boot camps, and seminars. As part of the process, all participants will pitch their challenge submissions to challenge hosts. The top three submissions from each challenge will then advance to the Final Pitch Night. During this event, finalists will present their ideas to a panel of judges, comprising industry partners and academic experts. The Final Pitch Night represents the culmination of months of hard work and dedication, as participants vie for cash prizes and recognition for their innovative ideas.

Additionally, esteemed guests including the President and First Lady, industry partners such as Nautilus Defense, members of the RISE-UP team, Deans from the sponsoring colleges, and other distinguished individuals will be attending, further elevating the significance of the event and providing valuable networking opportunities for participants.

The Innovation & Entrepreneurship Challenges have provided participants with a unique opportunity to take their ideas to the next level through various programs and partnerships. Winners of the challenges will not only receive cash prizes but will also have the opportunity to explore different pathways for further development.
