

CONNECT / CREATE / COMMERCIALIZE

It's both our tagline, and our recipe for success.

Whether you're an entrepreneur with a new venture, a seasoned executive helping to grow an established business, or a small team of inventors with a game-changing idea. You're all innovators, and all with the same goal. To get your product into customer hands.

Fortunately, you have 401 Tech Bridge on your side.

NETB Prize Challenge Announced!

Are you ready to be part of the largest in-water demonstration event in the North East?

Don't wait! Submit your application TODAY!

The Northeast Tech Bridge (NETB) working with 401 Tech Bridge, the Office of Naval Research (ONR), and NavalX is running a multi-phase prize challenge to identify **technology solutions to monitor and protect undersea critical infrastructure.**

This year, the technology focus areas include:

- Autonomous undersea and surface vehicles (AUV and ASV)
- Mobile and stationary sensors
- Resilient undersea and cross-domain communications
- High resolution undersea imaging

Deadline to apply: April 14th

For prize challenge criteria, submission requirements and demonstration information, refer

The Navy Needs YOUR Help...

Are you an innovator developing products and technology for undersea, offshore, maritime, or Blue Tech?

Below are a few of the opportunities that 401

[Visit our Website](#)

Tech Scouting Opportunity

Robotic Blasting & Painting

Identify and test an autonomous/robotic system capable of abrasive blasting, painting, and inspection of confined spaces.

Tech Scouting Opportunity

Corrosion Detection

Seeking technologies that will minimize maintenance and labor cost by providing a non-destructive method for detecting undercoat corrosion on metal substrates.

Tech Scouting Opportunity

Technician Remote Assist

Searching for technologies that provide remote assistance to shipyard technicians and emergency workers, in an effort to reduce cost and schedule delays.
